SUMMARY

DevOps, Cloud Delivery, and DevSecOps Engineer with **3+ years** of production experience across AWS and Azure — provisioning compute, networking (VPC/VNet, Load Balancers, DNS, VPN), IAM, and storage, and deploying containerized workloads on Kubernetes. Automates CI/CD & GitOps releases, with hands-on Kubernetes experience spanning core kubectl operations to production cluster administration, plus an enterprise monitoring/observability stack built across **15+ servers**. Applies DevSecOps practices including SIEM monitoring, IAM hardening, and VA/Pen Testing. Led a team of **6 engineers** and cut manual deployment effort by **80%**.

SKILLS

Cloud Platforms : AWS (EC2, VPC, S3, IAM, CloudWatch, Route 53, ALB/ELB), Azure (IaaS/PaaS/SaaS)

CI/CD Tools : Jenkins, GitLab CI, GitHub Actions, SonarQube, Nexus

IaC & Config Management : Terraform (Modules, Remote State), CloudFormation, ARM Templates

Containerization : Docker, Kubernetes, Helm, Argo CD (GitOps), Kustomize

Operating Systems : RHEL, Ubuntu, CentOS, Windows Server 2016/2019/2022

Version Control : Git, GitHub, GitLab

Monitoring & Observability : Prometheus, Grafana, Loki, Promtail, Node Exporter, Alertmanager, ELK Stack

Scripting & Programming : Python, Bash, PowerShell, Java

Security & Compliance : Wazuh SIEM, IAM Policies, RBAC, OS Hardening, VA/Pen Testing, SSL/TLS, Zero Trust

Networking : WatchGuard Firewall, IPSec/SSL VPN, LAN/WAN/VLAN, NACLs, Security Groups

WORK EXPERIENCE

DevOps Engineer | Interactive Bees, Delhi

May 2026 - Present

- Provisioned and managed AWS (EC2, VPC, S3, IAM, CloudWatch) and Azure infrastructure — VPC/VNet networking, load balancers, DNS, and IAM policy enforcement — using Terraform IaC.
- Administered production multi-node Kubernetes clusters, including cluster upgrades, HPA autoscaling, RBAC, and Network Policies, and delivered zero-downtime rollouts/rollbacks via Jenkins, GitLab CI, Helm, and Argo CD GitOps.
- Implemented DevSecOps controls — Wazuh SIEM monitoring, IAM policy hardening, and vulnerability assessment — strengthening incident response and RCA across cloud and on-prem infrastructure.
- Built a Prometheus, Grafana, Loki, Promtail, Node Exporter, and Alertmanager observability stack across **15+ servers**, reducing MTTR by **60%**.

Linux System Administrator | Maxtra Technologies, Noida

Feb 2025 - Apr 2026

- Hardened and tuned Linux (RHEL, Ubuntu, CentOS) systems via Bash scripting, and managed AWS infrastructure alongside Apache, Nginx, Tomcat, and cPanel web hosting.
- Deployed and troubleshooted Kubernetes workloads (Pods, Deployments, Services, Ingress), authored Helm charts, and resolved CrashLoopBackOff, ImagePullBackOff, and PVC/storage issues; automated CI/CD pipelines with Jenkins and GitLab CI.
- Mentored and led a team of **6 engineers** on DevSecOps practices — OS hardening, firewall policy enforcement, SSL certificate management, and DDoS mitigation — reporting directly to MD/CEO.

Associate DevOps Engineer | Infyq Solutions Pvt. Ltd, Gurugram

Jan 2024 - Feb 2025

- Supported Linux and AWS infrastructure, Jenkins/GitLab CI pipelines, Docker deployments, and Terraform IaC, contributing to incident response and root cause analysis.
- Executed Kubernetes pod deployments and core kubectl operations, configured namespace setup, and resolved routine tickets and alerts under senior guidance.

KEY PROJECTS

- Automated AWS Cloud Delivery:** Engineered reusable Terraform modules for EC2, VPC/Subnets, ALB, Route 53, and IAM with S3 remote state and DynamoDB locking, cutting provisioning time by **70%**.
- Streamlined Kubernetes & GitOps Deployment:** Delivered zero-downtime, automated rollouts/rollbacks on a production cluster using Helm and Argo CD GitOps, with RBAC and autoscaling.
- Built Enterprise Observability Stack:** Established full-stack monitoring across **15+ servers** with dashboards, alert rules, and log aggregation, reducing MTTR by **60%**.
- Secured Government Portal Infrastructure:** Deployed Wazuh SIEM, IAM/OS hardening, and VA/pen testing for greentribunal.gov.in and ipc.gov.in.

CERTIFICATIONS

AWS Certified Cloud Practitioner | AWS Certified AI Practitioner | Automation Anywhere RPA Professional | Advanced Business Analytics (Coursera)

EDUCATION

Master of Computer Applications (MCA)

Chandigarh University • Mohali, Punjab • CGPA 7.43

2022 - 2024
